

ams OSRAM Compliance Statement to Regulation (EC) No. 1907/2006 (REACH) - Article 33 (Candidate List) for Automotive and Digital Products

- Products delivered by OSRAM GmbH Divisions Digital (DI) and Automotive (AM) into the EU-Market today and in the future satisfy the applicable legal requirements, as well as the applicable product standards (EN/IEC).
- We installed a system within our company ensuring compliance with the applicable legal requirements. This system includes products, parts and materials procured from suppliers.
- According to the REACH Regulation the Candidate List of substances of very high concern (SVHC) is published by ECHA (European Chemicals Agency). As required by Article 33 OSRAM will inform customers, if certain products or its packaging contain one or more of these substances in a concentration exceeding 0.1% weight per article, as soon as we become aware of the fact. More information can be found under <https://echa.europa.eu/candidate-list-table>.
- According to the European Waste Framework Directive (incl. Amendment (EU) 2018/851) OSRAM is declaring products containing SVHC in the SCIP data base of ECHA (Substances of Concern In Products).

This declaration covers the products listed in the table below. Certain OSRAM complex products do contain SVHC. The declaration represents the latest version of the Candidate list as published in January 2022 (223 SVHC).

OSRAM products including an assembled printed circuit board or certain metal alloys usually contain the SVHC LEAD (CAS 231-100-4, EC 7439-92-1). The products are safe for the user, no special safety requirements apply. The use of lead is restricted by RoHS Directive (2011/65/EU) and allowed in exempted applications according to Annex III.

A product specific declaration can be available on request, please contact your ams OSRAM sales representative. Our declarations are based on information we collect from our supply chain.

In case there are specific questions please contact OSRAM Sales or reach@osram.com
