

Curriculum Vitae

Christin Eisenschmid

Christin Eisenschmid, female, born in 1965, German citizen. Member of the Supervisory Board of the OSRAM Licht AG, current term of office until 2027.

Christin Eisenschmid has more than 25 years of experience in senior management positions in the semiconductor and communications industries, with a particular focus on finance, sales, governance and public affairs. She began her professional career at Siemens AG in Munich in the semiconductor division. Subsequently, she held various leadership roles at Siemens AG, Infineon Technologies AG and Qimonda AG, including Vice President Finance, Vice President Planning and Controlling, and CFO of the Mobile Communications (Wireless Solutions) business unit.

From 2011, Christin Eisenschmid served as Chief Financial Officer of Intel Mobile Communications GmbH, Munich. Since 2014, she has been Managing Director, Vice President and General Manager of Intel Deutschland GmbH; since 2020, she has additionally served as Vice President Worldwide Government Affairs. In these roles, she is responsible not only for the strategic and operational management of the company but also for financial, governance and regulatory matters at both national and international level.

Christin Eisenschmid studied Business Administration at the University of Augsburg and graduated with a degree (Diplom-Kauffrau). She has extensive expertise in financing, accounting, controlling, risk management, governance and compliance structures, as well as sustainable corporate management, and is very well connected nationally and internationally due to her long-standing involvement in industry associations.
