

Curriculum Vitae

Wolfgang Lex

Wolfgang Lex, male, born in 1961, German citizen. Member of the Supervisory Board of the OSRAM Licht AG, current term of office until 2027.

Wolfgang Lex has more than 40 years of experience in the international opto-semiconductor and lighting industry. He began his professional career in 1984 at Siemens Semiconductor in the field of quality and reliability. Over the following decades, he held numerous senior leadership positions at OSRAM Opto Semiconductors and later at ams OSRAM, with increasing global responsibility for strategy, operations, and financial performance.

A central focus of his career has been the development, industrialization, and global scaling of the LED business, particularly in automotive and mobility applications. Under his leadership and significant contribution, OSRAM's Visible LED business grew from a mid-three-digit million-euro revenue level in the mid-2000s to approximately EUR 1.25 billion in 2025. He was responsible for global product lines and business units across the Automotive, Mobility, Industry, and Illumination segments and led international teams along the entire value chain.

Wolfgang Lex has deep expertise in technology and innovation management, global business leadership, quality and reliability management, automotive industrialization, and strategic market development. He also brings substantial experience in cross-cultural leadership, particularly in Europe and Asia, having been responsible for OSRAM Opto Semiconductors' Asia sales operations for a period of time.

Most recently, Wolfgang Lex served as Senior Vice President, OS Business Line (Mobility, Industry, Illumination) at ams OSRAM. He retired from operational management in January 2026.

Wolfgang Lex holds a Diploma in Electrical Engineering (Dipl.-Ing.).

Other supervisory board mandates outside the ams OSRAM Group: none
